BTBP Clarity™ Pro Silicon Valley Technology

Continuous R&D in skin science to
bring new features to your practice.

Now over
25 skin
parameters
measured

Detailed analysis
specific to the
treatments
you offer

- Bring in the competitive advantage for driving treatment and skin care sales
- Give your clients powerful visual data for pre- and post-treatment evaluation
- Get useful measurements for pigment and subsurface erythema to provide targeted skin care

"Clarity Pro is a very powerful tool in showing a client the areas we can help improve their skin health. Showing them their pictures and continuing to record their progress on the Clarity Pro gives them concrete evidence of improvement."

– Teresa Marsee, Owner–Avanti of Norman
